

Fund Raising Programme

For Covid-19 Relief, Response and Resilience Programme

As we all are aware that the increasing spread of Covid-19 has become the most critical public health emergency all over the world. But prior to that, the lockdown abruptly announced by the Prime Minister Narendra Modi has worst affected the people depending on informal economy. More than 140 million people have lost their job since the lockdown and now face destitute. The devastating impact on this part of the country is also not spared to be witnessed with heart wrenching and piercing state of affairs. The situation has been compounded with exodus of migrant labours in our project areas. The coming monsoon season will be clubbed the area with another threat of malaria and water born diseases.

Trinity Foundation's response to Covid-19 includes immediate emergency relief, restoration and built back efforts with the help of stake holders and our funding partners with the principle of HELP (H- Health, E- Education, L- Livelihood, P- Protection) making continuous effort for the most vulnerable children, mothers/ women and local communities enabling them to prepare, mitigate and respond to the Covid-19 disaster. But what has been particularly worst affected in this crisis is the education of our children beneficiaries. As most of the schools have shifted to digital platform of education, but our underprivileged children are lacking behind as due to non accessibility to modern technology, which we fear can lead to education disparity in the coming days.

Although, it might be impracticable in our part to seek fund raising programme when entire world is grappling with devastation and delinquent situation. But, we have no choice as our need is huge and increasing with the rise of Covid-19 health crisis crippled with education and humanitarian crisis.

As the need is huge your any help us in the smallest ways will help us make a huge difference in the lives of the vulnerable in this time of crisis.

“We make a living by what we get, but we make a life by what we give.”

OUR FOLLOWING IMMEDIATE AREAS OF NEEDS ARE

- *Continue support for nutrition and balanced diet supply to our beneficiaries to improve the immune system during the present crisis.*
- *Online System with computer, internet facility for the children so that they can continue their education through online system to reduce the gap of education disparity.*
- *Sets of note books and stationary items for children.*
- *Additional Desk, Benches, tables and chairs.*
- *Drinking Water system and Heater to supply hot/warm water for drinking.*
